Subject: UN Spec Rapporteur's preliminary findings today

(b)(6) [REDACTED] went to the press conference and there was a grad student there covering for UPI - who seems the only one with the widest wing span. Only about 4 or 5 reporters. C-Span may play it later, but I can't believe they even had a camera there.

He said he would give the US Govt his report for comments in August and then report in Sept to the UN Human Rights Commission.

He clearly was fristrated about GITMO, not getting access to detainees and CIA detention issues.

(b)(6) Let us know if you guys hear more.... thanks, [REDACTED]
